4) FIRST AID MEASURES:

Description of First-Aid Measures:

Inhalation:

Remove patient to fresh air. Loosen clothing around neck and keep patient calm. If breathing is shallow or has stopped ensure airway is clear and apply resuscitation. Seek medical assistance if symptoms develop or persist.

Skin contact:

Immediately remove contaminated clothing and wash affected areas thoroughly with soap and water. Wash contaminated clothing before re-use. Seek medical assistance if irritation persists.

Eye contact:

Flush eyes with plenty of water for at least 15 minutes holding eyelids open. Remove contact lenses. **Seek medical assistance immediately.**

<p>Ingestion</p> <p>Most important symptoms and effects, both acute and delayed:</p> <p>Indication of any immediate medical attention and special treatment needed:</p>	<p>Rinse mouth and then get the patient to drink lots of water. Never give anything by mouth to an unconscious or semiconscious person. Do not induce vomiting. Seek medical assistance immediately and show this label or container or contact the poison centre. Carefully place the patient in such a way as to prevent vomit from entering the lungs. The above first aid instructions are applicable following ingestion of spray solution or small amounts of concentrate. However, if substantial amounts of the concentrate have been swallowed (>5g or about 1 teaspoon) AND if medical assistance is more than 30 minutes away, the induction of vomiting can be CONSIDERED, based on MEDICAL ADVICE if a physician can be contacted telephonically. Take special care to avoid the vomit from being inhaled.</p> <p>To date no symptoms are known.</p> <p>No specific antidote known. Treat symptomatically and supportively.</p>

Large accumulations of dust and fines associated with the industrial processing of bulk material may become a dust explosion hazard.</p> <p>This product could evolve oxides of carbon, nitrogen or sulphur if involved in a major fire.</p> <p>If the material is involved in a fire, especially in a confined space, then breathable air apparatus may have to be worn. Remove spectators from surrounding area. Isolate the fire area and evacuate downwind. Use a recommended extinguishing agent for the type of surrounding fire. Fight fire from maximum distance and use unmanned hose holder or monitor nozzles. Contain fire control agents for later disposal.</p> <p>Avoid inhaling hazardous vapours and fumes from burning materials. Keep upwind. Remove container from fire area if possible and without risk. Water can be used to cool unaffected containers but must be contained for later disposal. Do not scatter the material. Avoid pollution of waterways. Dispose of the fire debris and the contaminated extinguishing water according to official regulations</p> <p>Full protective clothing and self-contained breathing apparatus</p>
<p>6) ACCIDENTAL RELEASE MEASURES:</p>	
<p>Personal precautions, protective equipment and emergency procedures:</p> <p>Environmental Precautions:</p> <p>Occupational spill:</p>	<p>Avoid contact with eyes, skin and clothing. For personal protection see Section 8.</p> <p>Prevent further leakage or spillage if safe to do so. Do not flush into surface water or sanitary sewer system. Do not allow to enter drains or watercourses. If contamination of water courses is unavoidable, report to the Police and the Department of Water/Environmental Affairs immediately.</p> <p>Recover the product by sweeping up or by vacuuming, raising dust. Collect the spilled material and waste into sealable open-top type containers for disposal. Decontaminate floors and objects thoroughly with water and detergents.</p>

	<p>On-site disposal of concentrate is unacceptable. Material must be disposed of in accordance with local and national regulations.</p> <p>Clear area of animals and unprotected personnel. Wear protective gear: goggles. Half face-piece respirator with combined dust and vapour cartridge, full length clothing and PVC gloves. Reposition leaking containers to minimize further leakage. Do not allow contamination of public drains or surface or ground waters. Inform the local authorities if the spillage enters drains or surface or ground waters.</p>
